

Solid Core End Emitting Fibre cable

Solid core end emitting fibre cable consists of a PMMA polymer fibre core surrounded by a UV stabilized protective sheathing for mechanical protection. Cables are normally attached to a fibre optic end emitting fixtures or are used for decorative applications such as fibre optic star ceilings.

Technical Specifications

Product Description	Solid Core End Emitting Jacketed Fibre Cable
Material Inner Core	PMMA Polymer fibre
Material Outer Core	UV stabilized protective jacket

Product Code

Description	Product Code	Bending Radius	Core Diameter	Jacket Diameter	Jacket Colour
1.00mm End Emitting Solid Core	SCEE1.0	10mm	1.00mm	2.50mm	Black
2.00mm End Emitting Solid Core	SCEE2.0	15mm	2.00mm	4.00mm	Black
3.50mm End Emitting Solid Core	SCEE3.5	25mm	3.50mm	5.50mm	Black
6.00mm End Emitting Solid Core	SCEE6.0	40mm	6.00mm	8.80mm	Black
10.00mm End Emitting Solid Core	SCEE10.0	65mm	10.00mm	13.0mm	Black
14.00mm End Emitting Solid Core	SCEE14.0	90mm	14.00mm	14.0mm	Black
