

# MICROFARO / MINIFARO FLAT

Il proiettore Minifaro flat offre soluzioni architettoniche molteplici a lighting designers ed architetti. Design essenziale, ricchezza di accessori ed elevate performances ottiche ne completano le caratteristiche. L'ampia gamma di soluzioni LED disponibili risponde alle esigenze di risparmio energetico e riduzione dei costi di manutenzione.

*Minifaro floodlights offers a variety of architectural solutions to both lighting designers and architects. Main distinguish characteristics are pure design, wide range of accessories and high value optic systems. The range of powerful LEDs available meets different goals, both in terms of energy savings and cost reduction for maintenance.*
