

MINIPARIO

design arch. Maurizio Parrini

Il proiettore Minipario offre soluzioni architettrurali molteplici a lighting designers ed architetti. Design essenziale, ricchezza di accessori ed elevate performances ottiche ne completano le caratteristiche. L'ampia gamma di soluzioni LED disponibili risponde alle esigenze di risparmio energetico e riduzione dei costi di manutenzione.

Minipario floodlight offers a variety of architectural solutions to both lighting designers and architects. Main distinguish characteristics are pure design, wide range of accessories and high value optic systems. The range of powerful LEDs available meets different goals, both in terms of energy savings and cost reduction for maintenance.
